

Business Unit: Sika-Trocal Roofing

Date Of Issue: 2008

SIKA-TROCAL'S ALL FUELLED UP

For any large corporation their headquarters is a symbol of corporate grandeur and BP's newly built facility in Aberdeen is no exception - with a little help from Sika-Trocal.

Sika-Trocal licensed contractor O'Turner Insulation Ltd provided the finishing touches to this impressive new build project with over 8,000m² of Sika-Trocal Type S membrane installed on to metal decking with Kingspan insulation. Project manager for main contractor Bowmer and Kirkland was keen for a Sika-Trocal solution but the actual contract was won on the basis of works package, guarantee, speed of application, project time saving and overall cost. O'Turner Insulation is no stranger when it comes to prestigious installations and has for the last 25 years been harnessing its expertise in both wall cladding and flat roofing solutions in the commercial sector through the UK.

Using the latest Green Guide ratings from the BRE this solution would achieve an A+ rating, the highest possible ranking. The Sika-Trocal Type S membranes have been widely used in the UK since 1972 and have been assessed by the BBA to have a stated life expectancy 'in excess of 30 years'. Given such a broad and impressive performance criteria it is easy to understand why so many prestigious projects have specified a Sika-Trocal solution.

Nigel Blacklock, business unit manager, Sika Roofing concludes: "It's important for us to work in partnership with our contractors to ensure that collectively we offer the best possible solution for the client. Our Type S membrane has been proven across the UK for over 30 years and combined with the additional support we offer the contractor; it's a perfect platform for success as this project with O'Turner Insulation ably demonstrates."

Ends.

Note to Editors:

Sika Limited is a wholly owned subsidiary of Sika AG, a global company based in Switzerland specialising in the manufacture and supply of chemical based products for construction and industry. A world-leader in its field Sika has subsidiaries in more than 70 countries, generates annual sales of CHF 4.6 billion and is committed to providing quality, service, safety and environmental care. In Great Britain, Sika AG owns the two major single ply roofing system brands, Sarnafil and Sika-Trocal, operating them as competing brands from separate limited companies.

The Sika-Trocal Roofing Division of Sika Limited provides flat roofing membranes for the new build and refurbishment markets. Trocal was first established in Great Britain in 1972 and acquired by the Sika Group in 2001. Throughout its history the company has maintained high standards of training and quality installation, building a loyal specialist sub contractor, specifier and client base. Today Sika-Trocal provides high levels of specification generation, site support, straightforward guarantees and quality in construction, making Sika-Trocal the contractor's choice. Sika Limited's head office is based in Welwyn Garden City at Watchmead, Welwyn Garden City, Hertfordshire, AL7 1BQ. Call 01707 394444 or visit www.sika.co.uk/roofing.
