SIKA-TROCAL'S CHILL OUT SOLUTION

Sika-Trocal contractor, O'Turner Insulation Ltd has recently completed the installation of a large flat roof on Tesco's new chilled and frozen food distribution centre in Livingstone, Scotland.

The 32,000m² project benefitted from the Sika-Trocal Type SGK membrane bonded onto a steel faced composite panel, a system that has proven to be particularly suited for applications where high humidity requires limited penetration of the deck, or where additional insulation is a pre-requisite, as a number of other high profile case studies testify.

The Sika-Trocal SGK membrane was adhered to the composite panels using Sika-Trocal Type c300 polyurethane adhesive and is backed by BBA certification with a stated life expectancy in excess of 30 years.

Sika-Trocal's association with Tesco's goes back several decades and Tesco is in fact the company's oldest client. In the 1990's Tesco carried out air leakage testing on its warehouses and stores. The results achieved were, and continue to be, significantly better than the building air tightness levels required by Building Regulations Approved Document L (Part L) 2006. This also adds to the fact that Sika-Trocal continue to satisfy the demands of today's environmentally conscious construction programmes.

Nigel Blacklock, business unit manager, Sika Roofing concludes: "Not only do we have a great network of contractors, but they in turn work with some of the largest and most prestigious clients in the construction sector. We are also working with a number of other supermarkets to provide them with a proven, performance-led solution. We've spent over 30 years building a reputation, something that we will continue to enhance with our contractors and partners."

Ends.

Note to Editors:

Sika Limited is a wholly owned subsidiary of Sika AG, a global company based in Switzerland specialising in the manufacture and supply of chemical based products for construction and industry. A world-leader in its field Sika has subsidiaries in more than 70 countries, generates annual sales of CHF 4.6 billion and is committed to providing quality, service, safety and environmental care. In Great Britain, Sika AG owns the two major single ply roofing system brands, Sarnafil and Sika-Trocal, operating them as competing brands from separate limited companies.

The Sika-Trocal Roofing Division of Sika Limited provides flat roofing membranes for the new build and refurbishment markets. Trocal was first established in Great Britain in 1972 and acquired by the Sika Group in 2001. Throughout its history the company has maintained high standards of training and quality installation, building a loyal specialist sub contractor, specifier and client base. Today Sika-Trocal provides high levels of specification generation, site support, straightforward guarantees and quality in construction, making Sika-Trocal the contractor's choice. Sika Limited's head office is based in Welwyn Garden City at Watchmead, Welwyn Garden City, Hertfordshire, AL7 1BQ. Call 01707 394444 or visit www.sika.co.uk/roofing.
