HOSPITAL HIGHS

When it comes to installing single ply roofing systems in the healthcare sector Sika-Trocal can boast a number of impressive case studies, as the installation at The Glen Primary Care Centre shows.

Carried out by Licensed Contractor Roofclad Systems Ltd the installation at The Glen Primary Care Centre required 1,400m² of Sika-Trocal Type S membrane which was specified in a 1.5mm light grey option. This was fixed to 0.7mm Euroclad steel decking using the Sika-Trocal disc fitting system and insulated with Kingspan's Thermarroof TR26.

The unique Sika-Trocal disc system was chosen for speed of installation. Based on a single fastener and plate combination which is used to mechanically attach the thermal insulation and membrane to the roof the system also saves the expense of two attachment systems, which are typically used in other more conventional fixing systems.

Tim Clark, national sales manager of Sika-Trocal comments: 'We've got a strong product offering with our disc fitting system, green credentials and experience in the UK. Put simply we tick all the boxes for contractors and specifiers and that's why we are often able to outperform our competitors in the marketplace, as customers such as Roofclad have been able to appreciate.'

Ends.

Note to Editors:

Sika Limited is a wholly owned subsidiary of Sika AG, a global company based in Switzerland specialising in the manufacture and supply of chemical based products for construction and industry. A world-leader in its field Sika has subsidiaries in more than 70 countries, generates annual sales of CHF 4.6 billion and is committed to providing quality, service, safety and environmental care. In Great Britain, Sika AG owns the two major single ply roofing system brands, Sarnafil and Sika-Trocal, operating them as competing brands from separate limited companies.

The Sika-Trocal Roofing Division of Sika Limited provides flat roofing membranes for the new build and refurbishment markets. Trocal was first established in Great Britain in 1972 and acquired by the Sika Group in 2001. Throughout its history the company has maintained high standards of training and quality installation, building a loyal specialist sub contractor, specifier and client base. Today Sika-Trocal provides high levels of specification generation, site support, straightforward guarantees and quality in construction, making Sika-Trocal the contractor's choice. Sika Limited's head office is based in Welwyn Garden City at Watchmead, Welwyn Garden City, Hertfordshire, AL7 1BQ. Call 01707 394444 or visit www.sika.co.uk/roofing.

Further press information about Sika Limited and Sarnafil Limited, including an extensive image gallery, can be found at the Sika Media Centre – www.sikamarketing.co.uk.
