SIKA-TROCAL'S SCHOOLING

With the continued commitment to invest in schools throughout the UK, South Ayrshire council has used the opportunity to replace the roof at Symington School in Ayr with a little expertise from Sika-Trocacal and local contractor WM Skinner.

Given the state of the existing roof, and the school's location on the West Coast of Scotland, the council wanted a long lasting and proven solution that could withstand the severe winds and high levels of rainfall. With a BBA certification which states a life expectancy in excess of 30 years, this was ample proof that the Sika-Trocacal concept would be a perfect solution for the school.

Completed in spring 2009 by Sika-Trocacal licensed contractor WM Skinner, who also acted as main contractor for the project, the project involved the installation of 2,000m² of Sika-Trocacal Type S membrane on to the school roof using the Sika-Trocacal disc system to help speed up and simplify the installation process.

Tim Clark, national sales manager was delighted with yet another successful project in the education sector and commented: "This was another example of how quick and efficient our Sika-Trocacal concept is. We're getting an increasing number of enquiries from the education sector thanks to our credentials and our concept really helps set us apart from other single ply membrane suppliers. It's the perfect showcase for the abilities of Sika-Trocacal and our Licensed Contractors such as WM Skinner."

For further information on Sika-Trocacal's credentials in the education sector and their fast efficient roofing systems contact Sika-Trocacal on 01707 394444 or email sika-trocacal@uk.sika.com for your FREE information pack.

Note to Editors:

Sika Limited is a wholly owned subsidiary of Sika AG, a global company based in Switzerland specialising in the manufacture and supply of chemical based products for construction and industry. A world-leader in its field Sika has subsidiaries in more than 70 countries, generates annual sales of CHF 4.6 billion and is committed to providing quality, service, safety and environmental care. In Great Britain, Sika AG owns the two major single ply roofing system brands, Sarnafil and Sika-Trocal, operating them as competing brands from separate limited companies.

The Sika-Trocal Roofing Division of Sika Limited provides flat roofing membranes for the new build and refurbishment markets. Trocal was first established in Great Britain in 1972 and acquired by the Sika Group in 2001. Throughout its history the company has maintained high standards of training and quality installation, building a loyal specialist subcontractor, specifier and client base. Today Sika-Trocal provides high levels of specification generation, site support, straightforward guarantees and quality in construction, making Sika-Trocal the contractor's choice. Sika Limited's head office is based in Welwyn
